DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The prior art teaches most of the elements of the claimed invention; however, the prior art teaches an electrical contact between the gate sections (8a-8f of Libbey) and stop pins (11 and 12). The prior art fails to teach a plurality of electrical contacts connected to said plurality of elongate members and "said plurality of electrical contacts being caused to engage each other when said plurality of gate sections are at closed positions".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bena Miller whose telephone number is 703.305.0643. The examiner can normally be reached on Monday-Friday.
